ECHO ZE
BACKUP DRIVE

Always-Ready, Plug-and-Stay Backup Drive

Whether you're a business professional giving presentations on the road, a student doing schoolwork at a friend's house, or someone simply using a laptop in a cafe, it's important that you ensure that the files on your netbook or notebook are secure and protected. And portability and readiness are essential to an effective backup solution. Developed with this in mind, the Lexar® Echo ZE backup drive is a low-profile drive that provides a convenient way to automatically back up and protect your essential files on the go. The drive is available in 8GB, 16GB, and 32GB capacities.

Automatically and Securely Back Up Files

Plug-and-Stay Solution. The Lexar Echo ZE backup drive is an always-ready backup solution with a plug-and-stay design. Its ultra-small size allows you to easily plug it into your system's USB port—and keep it there—for automatic backup of your essential files.

Automatic Backup of Essential Files. Built-in Lexar Echo backup software securely and automatically encrypts files and performs ongoing backups to any files in use, targeting essential files to help protect your working data. It also easily restores previously saved versions of a file, preventing you from accidentally overwriting or deleting files. And the software works across platforms with one seamless interface, allowing you to easily back up or restore files on either a PC or a Mac® system.

Portability for Users on the Go. The Lexar Echo ZE backup drive has a convenient, reliable flash-based design for peace of mind on the go. Available in 8GB, 16GB, and 32GB capacities, the drive lets you back up and protect your most important files—great for your mobile lifestyle.

Lexar offers a comprehensive line of innovative, award-winning memory products in several categories, including memory cards, card readers, DRAM, USB flash drives, and portable backup drives. With so many options, it's easy to find the right Lexar solution to fit your needs.
